WEST BENGAL AND KHULNA DIVISION · INDIA AND BANGLADESH

Sundarbans

The world's largest mangrove forest, a maze of tidal creeks shared by India and Bangladesh, where tigers swim between islands and kingfishers, crocodiles and mudskippers line the banks.

121 animals 18 mammals, 83 birds, 13 reptiles, 3 amphibians, 2 fish and 2 other sea life
Best time: Nov to Feb

BEST TIME

Nov to Feb

November to February is the best time to visit: the weather is cool and dry, the light is good, and crocodiles bask in the winter sun.

A guide, not a guarantee: what you see depends on season, luck and patience. Give wildlife space and never feed it. Follow the local rules on distance.
